Tel: 01282 683040

Headteacher:  
Andrew Williams MA, NPQH

March 2021

Dear Candidate

Welcome to Rhyddings Business & Enterprise School, which serves the East Lancashire old mill town of Oswaldtwistle and surrounding area of Hyndburn. It has been at the heart of the community for over 85 years and although a smaller than average high school we cater for pupils from a diverse range of backgrounds. The school enjoys good transport links via the M65 corridor and adjoining networks of M6 and M66.

The school is in a period of transition, quite literally with a planned capital building programme. Uniquely, whilst this is taking place the school has been temporarily off-site for the academic years 2019-2021, to allow for demolition and construction work. Therefore, we are currently based at Hameldon College, Coal Clough Lane, Burnley, for this academic year but return to Oswaldtwistle in September 2021

In the meantime, the school continues to work hard to prepare the young people we serve and help them realise and reach their potential, providing them with the very best educational experiences. We are also part of an active application to form a new multi-academy trust (MAT), within Hyndburn, with a neighbouring high school and two primary schools. This will afford the very best support and opportunities for pupils and staff across the proposed Trust.

Pupils are well supported through our Pastoral House Continent system with year group tutoring supported by Continent Leaders. This provides the support pupils need to perform well across the curriculum as well as healthy competition throughout the year. We have an active extra-curricular programme and run a number of annual residential trips both here and abroad. Close links with the local Rotary Club provide access to bespoke programmes, community work and charitable activities. Large numbers of pupils complete their Duke of Edinburgh Bronze Award.

We have a 3 year KS3 and 2 year KS4 offering EBacc, should pupils choose to do so.

**School visits can be accommodated.**

## **2<sup>nd</sup> in Charge Maths**

The Department has 4 full-time teachers and is led by a Lead Subject Teacher (LST). The post is vacant due to the phased retirement of a member of the team. This post is to support the LST of Maths and would suit an appropriately experienced Maths teacher seeking to further their own career and leadership development.

Respect	Yours	Determination	Neighbourly	Supportive
Honesty	Democracy	Inspire	Generous	

You join at an exciting time with the LST having completed their first year of the Maths Mastery NCETM programme. Year 2 (Sept '21) will focus on developing this across our maths department and Year 3 supporting other schools. Specific areas of responsibility for the 2<sup>nd</sup> in Charge will be identified with the successful candidate.

We currently offer the Edexcel GCSE in Maths at KS4 and pupils have 4 hours per week in both Years 10 & 11. At KS3 pupils also have 4 x 60 minute lessons per week and cover the National Curriculum using the 'White Rose' maths scheme as the basis for our Maths curriculum.

We also subscribe and use the online Mathswatch platform.

The Maths rooms are suited together and well-resourced. Collaboration across the LST and core 2<sup>nd</sup> in Charge's is common place and collectively they work together as a mutually supportive and driving middle leadership team.

All members of our community have access and use Office 365 including collaborative learning tools such as MS Teams and OneNote. The LST is responsible for curriculum design and delivery as well as being supported by their SLT Link.

We have access to regular CPD both in school, external courses and through our local membership of the East Lancashire Teaching School Alliance (ELTSA) and nationally through the PiXL organisation. At the heart of forming a new MAT is to provide the best career support, development and opportunity to all staff. The Trust, if successful, will retain national teachers' pay and conditions and follow the 'Burgundy' Book.

If you have the right skill set and are ambitious, then we would welcome your application.

Applications should be submitted using the forms available from our website with a supporting letter of no more than two pages of A4. [www.rhyddings.co.uk/vacancies](http://www.rhyddings.co.uk/vacancies)

Please return completed applications to Mrs Worthington, PA to the Headteacher [worthingtong@rhyddings.co.uk](mailto:worthingtong@rhyddings.co.uk)

Similarly, should you wish to arrange a visit to the school please do contact her.

Yours sincerely

Andrew Williams  
Headteacher
