PRIORY TEACHING STAFF 'SHOP OF SUPPORT'

SUPPORT AVAILABLE FOR ALL TEACHING STAFF AT PRIORY

This document outlines the **type** of collaborative support on offer for **all staff** at Priory, **you**, to complement **your** CPD, as well as our PM, appraisal or capability processes.

This 'shop of support' is not an exhaustive list. It will evolve year on year and throughout the year. It will be specific in some cases to certain individuals – whether that be teachers, TA's or the headteacher for example, but is nevertheless listed within this document to provide concrete examples of the type of support available to **you** as an individual, as and when **you** might need or want it.

It will allow **you** to **initiate** conversations (please don't wait for colleagues to approach you) with colleagues about what needs to improve, what will move **you** from good to great, but importantly, **how** that might be achieved.

Why should I need support?

- Minimum expectations (as outlined in the teacher standards) are that 'you make the education of your pupils your first concern, and are accountable for achieving the highest possible standards in work and conduct. Where you act with honesty and integrity; have strong subject knowledge, keep your knowledge and skills up-to-date and are self-critical; where you forge positive professional relationships; and work with parents in the best interests of your pupils.' (Teacher standards document)
- Because you must ensure the best academic and pastoral progress of all our pupils.
- You must be willing therefore to reflect on your practice, year on year, to avoid complacency and <u>change</u>, <u>evolve</u> or <u>tweak</u> the way you do things so your practice is continuously honed and improved to achieve this.
- Because, 'what got you here, will not necessarily get you there' you must break any mind-set that chain you to certain ways of doing things and to doing things the way you have always done them.
- Because the highest form of accountability is your own professional accountability for the quality of your work and to the pupils who you support.
- Because you must be an agent of your own accountability committed to your own professional learning improving your pedagogical skills, accessing and using best evidence, innovating, evaluating and improving learning.
- Because **you** must ultimately take ownership and accountability of **yourself** for the outcomes and the quality of education that **you** provide at Priory.

What will Priory aim to do?

- Recognise that work is a huge part of our lives, and that our lives can affect our work. Therefore, help
 address this 'lifestyle balance' by providing 'professional support' that enables us to be the best we can be
 in our work as well as 'personal support' that focus on our welfare and well-being.
- Recognise that developing the quality of leaders, teachers, TA's and support staff is one of the most
 important jobs in the school and make it the starting point that professional learning can always be better.

- Ensure there is sufficient investment in professional learning for **you**, and that developing professionalism is a key strategic priority.
- Remove obstacles and create the conditions that will allow **you** to develop.
- Support **you** to work collaboratively to evolve, to cultivate peer learning within school and between schools and to encourage innovation.
- Support **you** to plan and evaluate **your** teaching with colleagues, observing and learning from each other and sharing what works within or across groups of schools.
- Support **you** to access, where necessary and at the right times, relevant support as listed in this document.
- If necessary, prioritise support in the following order. Those staff following:
 - Formal capability
 - Informal capability
 - Appraisal
 - Staff not following appraisal or capability procedures.

What's the programme about? Whereas other CPD programmes may have leadership in mind, CTeach is focused on classroom practice. Over 14 months, teachers will undertake a range of assessments and learning to develop and showcase their knowledge and skills.

How can it benefit you? Chartered Teacher Status celebrates high-quality teaching practice which can change lives. Participating in the programme can support the personal and professional development of you while also developing the knowledge of effective classroom practice.

If you are a member of staff with at least three years of teaching experience who would benefit from CTeach, please visit chartered.college/chartered-teacher or email chartered.college to find out more.

'PERSONAL SUPPORT' AVAILABLE FOR ALL STAFF AT PRIORY

Our framework of personal support is focused around 'Self-Care' and 'Team Care'. A recognition of our own (Self-Care) and our colleagues (Team Care) Mental Health; Physical Health and Nutritional Health – all of which is wrapped around our Priory culture.

- A culture where open and honest discussions on how we might improve and/or support our welfare as staff are welcome.
- A culture where, collectively, as a staff, we help ourselves and help each other address our 'lifestyle balance'.
- A culture where we recognise the signs in ourselves and our colleagues when the demands (professional and/or personal) on you/your colleague outstrip your/their belief in your/their ability to cope with them and:
 - Let others know/talk to colleagues
 - Discuss possible short-term solutions
 - Discuss possible longer-term solutions

- Focus in addition, on what is going well the positive.
- A culture where open and honest discussions with colleagues, who may wish to discuss their own particular circumstances, will be facilitated as a viable alternative to capability. Please see Mr Eastham (or line manager in the first instance), should you wish to engage in a without prejudice and protected conversation an 'off the record' conversation to discuss your own particular situation at any given time.

 - The <u>Talking Toolkit</u> is a downloadable free resource, which gives staff in school templates for simple, practical conversations about work issues which can be causes of stress, if they are not managed properly. The toolkit has six templates for six different conversations to be held between school leaders, line managers and staff. Each conversation is shaped around an area which, if not properly managed, is associated with poor health, lower productivity and increased sickness absence.
