Dear Applicant

I believe in giving all young people, regardless of their backgrounds or abilities the very best possible start in life; if you share that belief then Moor Park High School and Sixth Form is the place for you. In 2018 we were the most improved secondary school in Lancashire and our standards continue to go from strength to strength. Our most recent Ofsted inspection in September 2021 established that the school is now firmly 'Good' and that safety, good behaviour and high expectations permeate every part of school life. The report also notes that; "Teachers enjoy working at the school. They feel valued and supported by senior leaders and governors."

This is a small, friendly and caring school where every young person is known and where the time is taken to guide, develop and nurture them to fulfil their potential. The same is true of our teachers; you will be known, cared for and developed because you are the most important resource in the school. We care, and we go the extra mile because the future of every young person matters. We take staff wellbeing seriously and minimise meetings, reduce contact time, invest in training and resource our classrooms, so that we can recruit and retain the best teachers and leaders.

Our sixth form consistently delivers 100% pass rates, with a steady stream of our young people going onto excellent universities and bright futures. At GCSE level, our students progress better than other students nationally and at key stage three, we take the time to both provide a stable and tailored induction from primary to secondary and to develop the essential subject specific skills and knowledge that are crucial to successful further study. The quality and ambition of our curriculum was praised by Ofsted in September.

If in your heart you have boundless optimism that you can contribute to a better world. If you are endlessly passionate about your subject and if you think that you can make an indelible difference to a young person's life, I want to hear from you.

Yours sincerely

Ben Corbett
