

LANCASTER ROAD PRIMARY SCHOOL

RESPECT, RESILIENCE, RESPONSIBILITY

Thank you for your interest in our teaching vacancy.

Lancaster Road Primary School is a large primary school close to Morecambe town centre and within walking distance from the beautiful Morecambe Bay coastline.

In September 2021 we completed our expansion program and are now 3 form entry in every year group. However as the birth rate falls we will be slowly returning to 2 form entry starting with a 60 intake to Reception in September 2025.

Each year group forms a strong team, who work together to ensure each and every child is safe, happy and achieves their very best.

We are very proud of our curriculum at Lancaster Road and take every opportunity to bring learning to life through local visits, residential, visitors into school and ensuring resources are engaging and interesting. Please share with us in your application your subject specialism and how you would hope to use this to contribute to school life.

Pupils are keen to learn at Lancaster Road and they are always proud to share their work with family and friends via showcase sessions, open days/evenings and parent/teacher meetings.

Families support school and expect the highest standards for their child. At Lancaster Road we work with families as a team to support children, to ensure they are able to make the most of all learning opportunities.

Lancaster Road is an inclusive school and has a successful track record supporting pupils with special education needs and disabilities. As a class teacher you must be able to adjust learning accordingly to ensure access for all and to make sure each and every child has learning that challenges them appropriately to meet their educational next steps.

Finally, to be the very best teacher you can be, you must be a reflective practitioner. Being able to look back on individual lessons, days and weeks and recognise where changes could have made a difference, is key to success. You will need to be able to take advice from colleagues, recognising this is part of ongoing CPD (continuing professional development) and provide support for colleagues in a respectful and professional manner. It does not matter how many years you have been teaching, being reflective and able to act on what you learn from this reflection is key to success as a teacher.
