

A foundation for success since 1932

TEACHER OF TECHNOLOGY
MPS/UPS
REQUIRED FROM SEPTEMBER 2025

Dear Candidate

On behalf of the governors at Ribblesdale School, thank you for the interest you have shown in the position of Teacher of Technology at our school.

The governing board is seeking to appoint a dedicated, highly skilled and knowledgeable practitioner who will create a warm and welcoming learning environment, foster high aspirations and challenge our pupils to achieve to the very best of their potential.

Our expert, friendly teaching and support staff work hard to ensure that our school continues to grow and improve, keeping our pupils' development needs at the heart of all we do. 'The Ribblesdale Way' encapsulates the core beliefs and expectations we hold for our pupils and staff. Ribblesdale School is a Microsoft Showcase School and a founder member and key contributor to the North-West EdTech hub. Every pupil in our care benefits from our Ofsted Grade 1 personal development programme which incorporates our unique enrichment curriculum.

Ribblesdale is a popular and successful school which enjoys close links with the local community it has served for more than 90 years. I would positively encourage candidates to visit Ribblesdale School to better understand the ethos and atmosphere of our learning community.

Thank you, once again, for your interest in working at our school. I look forward to receiving your application.

Bernadette Matterson
Chair of Governors

WELCOME FROM THE CHAIR OF GOVERNORS

TEACHER OF TECHNOLOGY

An exciting opportunity is available for a dynamic and talented practitioner with a passion and flair for technology to join a successful and vibrant area of our school. We are seeking applications from aspirational colleagues who possess excellent subject knowledge and have enthusiasm for the subject. If you have the skills and knowledge to create and foster an ambitious, innovative culture in technology, we want to hear from you!

Technology is a popular and well supported subject at Ribblesdale. At KS3, our pupils study a range of subject specialisms to prepare them for the different pathways we offer at KS4: GCSE, NCFE and BTEC qualifications. The department boasts a strong team, with three technicians and five specialist teachers, including a Subject Lead for Hospitality and Catering, all with experience of delivering high quality education and achieving outstanding academic outcomes.

Significant investment has taken place over the past decade and the faculty boasts some of the best resources amongst schools across the region. We have a number of 3D printers, 2 laser cutters, 2 fully equipped workshops, a food technology room and a recently refurbished graphics / food demonstration room.

The curriculum area is committed to developing well rounded, creative designers and well-equipped practitioners. Pupils in our school experience a breadth of opportunity including rapid prototyping and 3D scanning, lasercutting, smart materials and the opportunity to take D&T beyond the walls of the classroom, whether that be through local competitions or collaborating with prestigious institutions and organisations!

Excellent outcomes and expanding numbers of pupils studying at KS4 make joining the team at this exciting time a fantastic opportunity for the right candidate. This role offers the successful applicant an opportunity to join a thriving area of the school and become part of a cohesive, forward-thinking and ambitious team.

Applications are welcomed from confident, aspirational teachers who will share our passion for high quality pedagogy informed by the latest research. A thirst for championing technology across all aspects of the school is vital, along with the enthusiasm and commitment to continue to drive forward at this exciting time.

Thank you for your interest in our school. I hope that this applicant information pack gives you a flavour of our vibrant and thriving school community. We are incredibly proud of all we have achieved over the last 90 years and more, and ambitious in our plans for the next chapter of our school's onward journey.

We are currently a larger than average, truly comprehensive 4-16 co-educational local authority maintained school with 1400 pupils on roll. The last few years have seen us grow considerably as part of a local authority expansion project which led to the enhancement of our site and facilities and then, in a further 'vote of confidence' from our LA and local community, through the expansion of our age range, to become an all through school for pupils aged 4 - 16. Our fabulous brand new, net zero building opened in September 2023 to welcome our very first reception cohort.

Pupils at Ribblesdale are challenged and nurtured in equal measure. We prize the growth of positive, well-rounded citizens as highly as we do academic success, pursuing both with vigour and commitment. In our last inspection (February 2020), Ofsted commended our strong record of academic outcomes and rated our Personal Development provision 'outstanding'.

Opportunities for Ribblesdale pupils are rich and varied: our innovative use of education technology has seen us recognised as a Microsoft Showcase School and our unique Enrichment Programme helps pupils foster their talents and gain new skills and experiences, extending learning well beyond the classroom walls.

I hope you find the information in this recruitment pack useful and that you will be encouraged to apply to join our professional community. I guarantee you will be warmly welcomed and that, should you be successful, you will experience a wealth of opportunities in joining us at this very exciting time.

ABOUT OUR SCHOOL

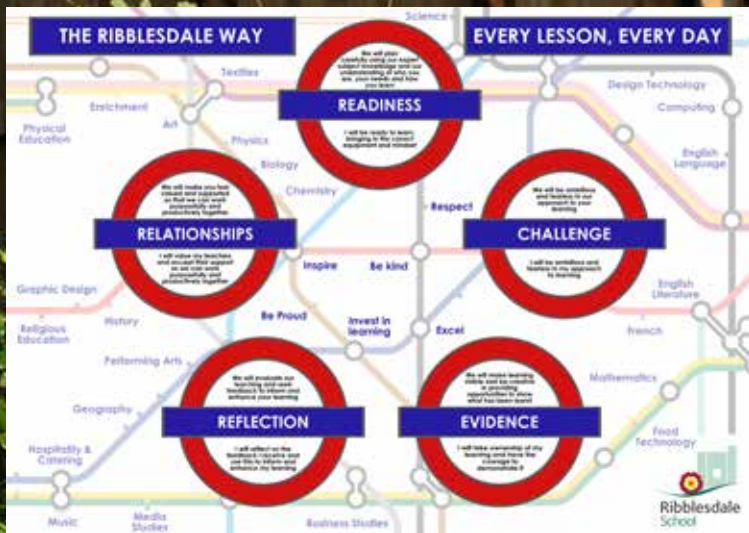

OUR CURRICULUM

At Ribblesdale we offer a broad and balanced curriculum to all year groups, which is accessible and delivered through great teaching; details can be viewed in the Curriculum Overview documents on our website. Traditional learning pathways across a range of subjects lead predominantly to a breadth of GCSE courses, and some vocational opportunities. This is further enhanced and complemented by an exciting enrichment offer, designed to support pupil progress. Character education and development of the whole person is a key theme of our rich and varied curriculum, alongside academic excellence and superb pastoral support. The structure allows targeted and timely intervention to take place across many aspects of the school curriculum. All young people take part in enrichment, which encompasses the development of moral, social and British values alongside skills and attributes for the future that include teamwork, organisation, leadership, presentation skills, collaboration, independence, reflection and self-confidence.

Our primary-aged pupils benefit from access to secondary facilities and specialist teaching as well as the state of the art, brand-new building in which they are based. Our constantly evolving and responsive curriculum utilises technology across the entire age range to enhance and empower learners both in school and beyond our gates.

At the heart of every aspect of the school is 'The Ribblesdale Way' (and the 'Road to the Ribblesdale Way' for our primary-aged pupils) which represents our core beliefs and our expectations of both pupils, and of those who work within the school. These key principles, behaviours and values provide a framework for our approach to teaching and learning, our rewards and sanctions policies and the mission and aims of the highly successful personal development programme which shapes Ribblesdale pupils into successful, well-adjusted adults capable of contributing fully and positively to 21st century society and to the global community to which we all belong.

THE RIBBLESDALE WAY

PERSONAL DEVELOPMENT AT RIBBLESDALE

Enrichment is an integral part of the school week at Ribblesdale and aims to provide our pupils with a range of skills, experiences and opportunities that they may not otherwise have, both within the National Curriculum and from home. Just as in other subjects, teachers plan lessons for our pupils to secure progress against a range of learning objectives to support the development of skills for life.

Enrichment has been running successfully for a number of years and we are very proud of comments made by inspectors in our last Ofsted Inspection: “The school’s curriculum enrichment programme is outstanding in providing pupils with highly-effective teaching of subject areas which interest and engage them.” We continue to deliver a diverse range of activities in which secondary pupils can participate on Wednesday afternoons - from volunteering in the community to first aid courses, fitness activities and opportunities to improve in debating and enterprise skills. Similarly, our primary-aged pupils access the ‘Ribblesdale GREATS’ - fifty enriching opportunities designed to build life skills and provide cultural capital - as well as visiting speakers, trips and visits.

We are well supported by our local community with involvement from Blackburn Rovers, Blackburn College, Crossfit, Roefield, Ribble Valley Tennis Centre and many more providers in the local area. More information is available through our social media and on our school website.

Enrichment is just one element of our far-reaching and comprehensive personal development programme. Covering online safety, careers education, sex and relationships education, PSHE, literacy, numeracy and mental health and wellbeing among other important topics and life skills, ‘My Future Matters’ gives every Ribblesdale pupil an excellent foundation from which to embark upon a happy, successful and fulfilling life after school.

At Ribblesdale School we pride ourselves on our innovative practice, enhancing our pedagogy with 21st century technologies. We allow pupils to access learning whenever and wherever they want, breaking down the walls of the classroom. At Ribblesdale we use technology and a range of other tools in a blended way to enhance the great teaching that takes place.

Pupils at Ribblesdale each have their own one-to-one Windows 10 device, which is used to support learning both within and outside the classroom. Giving pupils access to their own device provides them with a wealth of opportunities to learn and make progress and also allows teachers to formulate more engaging learning content, drawing on a wide range of software applications to encourage independence and to enhance engagement and motivation. Pupils are introduced to educational technologies from the Early Years Foundation Stage and will grow with it throughout their educational careers.

As a Microsoft Showcase School, we are at the cutting edge of educational technology helping to develop and test new methodologies and providing training and support to many schools across the North West and beyond.

EDTECH AT RIBBLESDALE

HOW TO APPLY

To apply, please send in a completed application form (which can be found on the 'Working at Ribblesdale' section of our website) accompanied by a supporting letter addressed to the Headteacher (no more than 2 sides of A4, Arial 11) detailing the qualifications, skills and experience which equip you for this role. Applications should be submitted to Anmarie Hough at vacancies@ribblesdale.org no later than 9.00 am on Tuesday 6th May 2025.

Interviews to be held week commencing 12th May 2025.
