

Wish List for our New Deputy Headteacher

We are expecting our new Deputy Head to have knowledge on the life of St Peter's and to show our values in all that they do.

We need our New Deputy to share our vision and to have great social skills to be able to interact with the children. We need our Deputy to have new ideas of extra curricular activities and how they can improve our school. This person should have a good knowledge about Christianity.

At St Peter's we do lots of extra curricular activities. We have a wide range of clubs e.g. Choir, Netball, Hockey, Football, Forest School and Worship, Art, Knitting and many more.

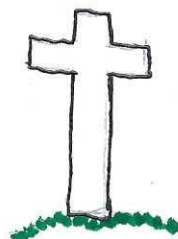

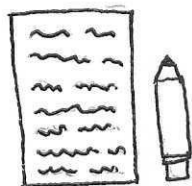

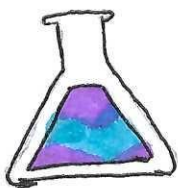

We do Rock Steady which is like a band where you learn to play an instrument and then you perform in front of all the parents.

We do lots of events like our Christmas Market, Easter Garden competition, Nativity Competition.

We go on many exciting trips to zoos and museums. In Year 6 we go on a big trip to Borwick Hall to say well done for doing SATs.

We have a Historian come in to talk to us about a historical topic. We run Parent in Partnership which is where our parents come in and join in with our lesson.

At our school we support lots of charities like Cash for Kids, Red Nose Day, Brain Tumor Charity, Children in Need and many more. These charities are chosen by our School Council each year.

LUNCHES/ HEALTHY LUNCH CODE

Our lunches are exceptional and our lunch ladies deserve a massive thank you for their fantastic food. Our Healthy Lunch Code is nut-free and no fizzy drinks or sweets. We help the lunch ladies by respecting them and putting our waste food in the bins and our plates away after our meals.

WORSHIP COUNCIL

Our Worship Council help to plan our school worship. This helps children to overcome their stage fright and learn to talk about Jesus and God. It's a good way to practice your speaking

SCIENCE AND FOREST SCHOOL

Science is a very important subject in school and we have done lots of experiments e.g. making cards, toys, food etc.. Our Forest School lessons are amazing and students can take part in outdoor activities to build and learn new skills. Eco Council do a great job working with school leaders to learn how to respect the environment and keep it safe.

SPORTS

*Out of all of our sporting success we have won first place in the Regional Kurling Finals, but other than that we have taken part in / won:
Football, Netball, Hockey, Athletics, Cricket, Tennis, Kurling, Cross-Country, Triathlon, Tag Rugby, Orienteering, Swimming, Sports Feseival.*

Whilst we take part in our sports we still show our values in all that we do. Our behavior is impeccable even when not in school and it's not just us that think so, it's others too.
